

Exhaust Pipe Cap 40 mm - Features

- Adjustable exhaust pipe cap base length/diameter: 40 mm
- Tightening the screw allows the diameter to be reduced to 43 mm
- Cap diameter: 60 mm
- Base height at screw closure point: 25 mm
- Total length: 195 mm
- Total height: 76 mm
- Material: Metal
- Unit weight: 0.3 kg

The adjustable measurements of the exhaust pipe cap's base provide remarkable versatility, with a base length or diameter of 40 mm, allowing adjustments that reduce it down to 43 mm when the screw is tightened. The cap, with a generous diameter of 60 mm, ensures adequate coverage of the exhaust pipe. The base height at the screw closure point is 25 mm, providing stability and security during installation.

With a total length of 195 mm and an overall height of 76 mm, this product guarantees perfect fit and optimal performance in its application.

Manufactured from metal, this component ensures durability and resistance to adverse conditions. Weighing 0.3 kg per unit, it balances robustness with ease of handling, facilitating installation and maintenance.

These features make this product a reliable and efficient choice for fastening and coverage needs in automotive exhaust systems.
