- Measurements:

Features:

Ensure a tight, long-lasting seal on your vehicle's exhaust system with our heavy-duty U-shaped clamp. Designed to withstand extreme vibrations and high temperatures, it's the ideal solution for installing mufflers, resonators, and exhaust tips.

- **Design:** Locking nuts included for a firm fit that won't loosen with engine movement.
- **Compatibility:** Universal for pipes
- **Installation:** Easy assembly without the need for complex welding.

Note: There may be slight differences due to manual measurement or slight color differences as a result of the photography scene.
